October BOM - "Measured Bars"

*** This is meant to be a scrappy block. You may, however, use two fabrics besides the white on white background.

*** It is really important to have an **accurate** ¼" seam when sewing this block.

Cutting for each block:

1 - 10" x 10" white on white /white for background
4 - 1 ¼" x 10" any colors
3 - 2 ½" x 10" any colors

1. Sew the colored fabric strips together, alternating, starting and ending with the 1 ¼" strips.

2. Press all seams in one direction.

3. On the wrong side of the white on white 10" x 10" sq. draw a line from one corner to the other. This is the cutting line.

4. Draw a line ¼" on both sides of the center diagonal line. These are the stitching lines. Sew just inside these two marked lines. Press the stitching lines to set.

5. Cut along the center diagonal line. You will end up with two blocks. Press the seams open on both blocks.

6. Square up your blocks to 9 ½" x 9 ½"
